

SERIES LFT 25/25 RETRACTOR

The Series LFT Retractor tubing suspension system is designed to support the flexible tubing from overhead when not in use, allowing it to be lowered to the operating level when required. The lifting device is a single spring retractor with ratchet stop and 1/4" steel suspension frame with cast eyelet and heavy-duty snap ring.

Series LFT Retractor shall be as manufactured by Car-Mon Products, Inc., Elgin, Illinois

SERIES BA BALANCER

The Car-Mon **Series BA** Spring Balancer is of industrial grade construction including steel internal components within a metal enclosure, and an adjustable hanger bracket for clevis and safety chain if necessary. The balancer is equipped with 1/8" diameter aircraft cable with a maximum travel range of 17'. Our balancer is factory adjusted to properly support the tube and adapter within the required travel range. Tension control is provided as a standard feature if field adjustment is necessary. Also included is an on/off ratchet lock which allows for positive height positioning.
