

SERIES CMX-124 MEDIA FILTER UNIT

STATIONARY UNIT FOR OVERHEAD OR WALL MOUNTING

Standard unit has 95% filter and 3HP motor with a maximum performance of 2800 cfm @3.5" ESP

All dimensions in inches

Car-Mon Media Filter Units include extruded aluminum structural frame with corrosion resistant ABS inset panels providing a reduced sound enclosure containing a belt drive fan, factory wired interlock and safety lockout/tagout disconnect switch. A nominal 24" x 24" aluminum pre-filter along with a honeycomb type "V" bank media filter module are standard. Consult factory for other filter options and unit configurations.

Weather tight units for outside installation are available, consult factory for details.

Higher static and larger filter units available, consult factory for design and performance.

Note: Factory reserves the right to change dimensional data without notice.
