

LFT 25/25 RETRACTOR

LIFT WEIGHT (LBS.)	10	15	20	25	30	35	40
FEET OF TRAVEL	25'	25'	25'	25'	23'	21'	13'

The Series LFT Retractor is designed to support equipment from overhead when not in use, allowing it to be lowered to an operating level when required. The lifting device is a single spring retractor with ratchet stop, heavy duty 1/4" steel suspension frame with cast eye ring for mounting, and an adjustable cable stop.
